

# Revolutionizing Vascular Interventions: State-of-the-Art

**The Ritz-Carlton, Jeddah**  
AL EZZ 1 Ballroom.

**27-29 OCTOBER 2023**  
08:00 AM - 07:00 PM

**Ahmed Sakr**

Vascular ART Secretary

**Mahmoud Salah**

Vascular ART President

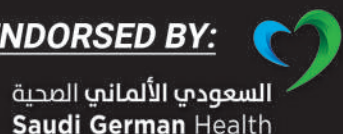

Head of vascular surgery dep.,  
SGH Jeddah.  
Chief of vascular surgery SGH group

Consultant of vascular Surgery,  
Vascular endovascular  
surgery Dep. SGH.  
Co-ordinator of endovascular unit,  
SGH, Jeddah

<https://VascularART.com/>

**ENDORSED BY:**

السعودي الألماني الصحية  
Saudi German Health

# **CONFERENCE PROGRAM**

**27 OCTOBER 2023**

**14:30 - 15:00** Opening Ceremony **Mahmoud Salah**

**Session I: Advancing Limb Salvage Techniques: Expert Insights  
and Live Case from Abano Terme, Italy**

**Panel: Marco Manzi - Mahmoud Salah - Ahmed Afandi**

**Moderator: Marco Manzi**

**Operator: Mariano Palena**

**15:00 - 15:15** Introduction about the session **Marco Manzi**

**15:15 - 15:35** Live Transmission from Abano Terme **Mariano Palena**

**15:35 - 15:45** 1-Role of Stenting in BTK lesions (CLIC live session from Abano terme) **Hany Zayed**

**15:45 - 15:55** Stenting in BTK , What Else ? **Alaa Abogreda**

**15:55 - 16:15** Live Transmission from Abano Terme **Mariano Palena**

**16:15 - 16:20** DES showed promising results in BTK **Marco Manzi**

**16:20 - 16:30** Angiosomal concept still have a role in CLI management **Mahmoud Salah**

**16:30 - 16:40** Preliminary results if heal study **M. Lichtenberg**

**16:40 - 17:00** **Discussion**

**17:00 - 17:30** **Coffee Break**

# 27 OCTOBER 2023

## Session II: International Union of Angiology

### Navigating Carotid Management Controversies: Practical Tips and Recent Guideline Updates

Panel: Mahmoud Salah - Martin Strock - Hassan Alzahrani

Moderator: Pedro Bablo Komlos (Online) - Luis Piere Antignani-Armand Mansilha

17.30-17.38	Stenting or Surgery, which is best for patient	Martin Strock
17.38 -17:46	Why the mini skin incision under local anesthesia should be considered the gold standard to treat carotid stenosis	Armand Mansilha
17:46 -17:54	Is TCAR an option to replace transfemoral CAS	Michael Kallmayer
17:54 -18:02	Overview - Protection device in CAS	Ashraf Hedayet
18:02-18:10	Updates on Asymptomatic carotid stenosis, recent guidelines recommendations	Hesham Mostafa
18:10 -18:18	Updates on best medical in carotid stenosis	Luis Piere Antignani
18:18 -18:26	Optimal Timing for Carotid Artery Stenting (CAS) and Carotid Endarterectomy (CEA) in Management of Stroke "	Mohamed Al Qarni
18:26 -18:34	Parapharyngeal Neck Schwannoma mimic Paraganglioma in Young Patient.	Ihab Saad
18:34 -18:42	The reliability of ipsilateral cerebral oximetry using near-infrared spectroscopy as a predictor for selective shunting during carotid endarterectomy	Abdullah Alhaizey
18:42 -18:50	Near Total occlusion (String sign) of ICA .... What is the best to offer CEA or CAS	Isam Osman
18:50 -19:05	Discussion	

# 28 OCTOBER 2023

7:00 -8:00 Registration

## Session III: Enhancing AAA Management: Expert Perspectives on EVAR (Endovascular Aneurysm Repair)

Panel: Hussein Kamal - Mohammed Hosney

Moderator: Nilo Mosquera -Samer Kossayer -Morad Sallam

8:00 -8:08	Total endovascular approach for arch repair	Nilo Misquera
8:08- 8:16	Comparing Total Abdominal Debranching to Chimneys and Snorkels in Thoracoabdominal Aortic Aneurysm Repair	Tarek Abd Elaziem
8:16- 8:24	Management options for infected EVARs	Murad Sallam
8:24 - 8:32	Reassessing the Role of CHEVAR in Aortic Aneurysm Management: Current Significance and Prospective Insights	Khaled Hindawy
8:32- 8:40	Endovascular management of Juxta and pararenal Aortic Aneurysm. Single Center study	Mohamed Hosny
8:40- 8:48	Treatment of visceral malperfusion syndrome after complicated type B aortic dissection.	Samer Kossayer
8:48- 8:56	Exploring the Role of Open Surgery in Treating Iliac Aneurysms: Insights and updates	Mohammed Elkassaby
	<b>Debate:</b>	
	Infrarenal Aortic Aneurysm in a fit patient, EVAR is good option	
8:56- 9:04	<b>Against</b>	Ahmed Nasef
9:04- 9:12	<b>With</b>	Hassan Zahrani
9:12- 9:20	Management of active sac post EVAR	Wael Tawfick
9:20- 9:28	Strategies in Failed Evar, how do we manage	David Wells
9:28- 9:40	<b>Discussion</b>	

# 28 OCTOBER 2023

## Session IV: Advancements in Peripheral Vascular Interventions: A Focus on Aorto-Iliac and Infra-Inguinal Vessels in Daily Practice

Panel: Ayman Salem - Marco Manzi - Mohamed Sharkawy

Moderator: Hany Zayed -Yann Gouffiecc

9:40- 9:48	CERAP In AIOD , New Scientific Based evidence	Giovanni Torsello
9:48 - 9:56	Does open surgery still have a role in AIOD	Amr Gad
9:56 – 10.04	<b>Debate:</b> Femoral Endarterectomy will always be the gold standard in CFA Occlusion	Ayman Elsamadoni
10:04– 10:12	<b>Debate:</b> Endovascular is a valid alternative in CFA occlusion	Yann Gouffiecc
10:12 – 10:20	Strategies for vessel preparation and plague modification	August YSA
10:20 - 10:28	Drug eluting technologies, still having a role, what is the evidence	Fernando Gallardo
10:28 -10:36	Debulking Modalities in SFA management	Ahmed Afandi
10:36 - 10:44	Transvenous endovascular Fem-pop bypass	Dainis Krevis
10:44 -10:52	Role of Endovascular Angioplasty in Management of Infra inguinal vascular trauma	Krzystof Szeianweski
10:52 -11:00	Popliteal Artery Disease (Injury, Aneurysm , Entrapment) how do we treat	Hussein Barayan
11:00- 11:20	<b>Discussion</b>	
11:20- 11:40	<b>Coffee Break</b>	

**28 OCTOBER 2023**

**Session V: Vascupedia @ Vascular ART**

**The Wide Scope of Vascular Interventions and Recent Insights**

**Panel: Mahmoud Salah - Giovanni Torsello**

**Moderator: Theodosios Bidas**

<b>11:40 - 11:45</b>	Intro	<b>Mahmoud Salah</b>
<b>11.45 –11.55</b>	Endovascular repair of complex aortic aneurysms: my devices of choice	<b>Theodosios Bidas</b>
<b>11:55 –12:05</b>	CERAB technique in aorto iliac occlusive disease.	<b>Martin Schroder</b>
<b>12:05 – 12:15</b>	Technical development in acute DVT treatment	<b>Michael Lichtenberg</b>
<b>12:15 – 12:25</b>	BEST-CLI and BASIL 2	<b>Giovanni Torsello</b>
<b>12:25 – 12:35</b>	Extreme revascularization in the diabetic foot	<b>Hany Zayed</b>
<b>12:35 – 12:45</b>	Vascular Anatomy of the Foot arteries: impact on endovascular recanalization strategies.	<b>Marco Manzi</b>
<b>12:45 – 12:55</b>	Management of SFA In stent occlusion: From mild to extreme	<b>Ahmed Sakr</b>
<b>12:55 – 13:15</b>	<b>Discussion &amp; Conclusion</b>	

**13:15 –14:00 Lunch Symposium** **Armando Mansilha**

Why European qualifications in vascular surgery (FEBVS) will have increasing importance in the future?

**28 OCTOBER 2023**

**Session VI: Site @ Vascular ART:**

**Handling Worst-Case Scenarios - Effective Management of  
Disastrous Vascular Cases**

**Panel: Vincente Rimbau - Mahmoud Salah - - Khalid Hindawy**

**Moderator: Nilo Mosquera . Ali Badra**

<b>14:00 - 14:15</b>	Disaster case presentation	<b>Vincente Rimbau</b>
<b>14:15 - 14:30</b>	Disaster case presentation	<b>Nilo Mosquera</b>
<b>14:30 - 14:45</b>	Disaster case presentation	<b>Laszlo Papp</b>
<b>14:45 - 15:00</b>	Disaster case presentation	<b>Mahmoud Salah</b>
<b>15:00- 15:15</b>	Disaster case presentation	<b>Ali Badra</b>
<b>15:15- 15:30</b>	Disaster case presentation	<b>Mohamed Shaltout</b>

# 28 OCTOBER 2023

## Session VIIa: "Mastering Below-the-Knee Revascularization: Expert Insights and Comprehensive Guide" (Tools in BTK)

Panel: Ahmed Nassef - Michael Kallmayer - Marco Manzi

Moderator: Yann Gouëffic - Martin Schroder -August Ysa

15:30– 15:38	(Guide wire Selection)	<b>August Ysa</b>
15:38– 15:46	(DCB still have a role)	<b>Yann Gouëffic</b>
15:46– 15:54	(Advancement of debulking devices)	<b>Theodosios Bisdas</b>
15:54– 16:02	(Stenting in BTK, Bail out devices used in BTK intervention)	<b>Marco Manzi</b>

## Session VIIb: Infra popliteal revascularization

16:02– 16:10	Infra Popliteal BTK Bypass Surgery is gold standard with long-term patency	<b>Fernando Gallardo</b>
16:10– 16:18	Revolutionizing Acute Limb Ischemia Management: The Vital Role of Endovascular Angioplasty"	<b>Mosaad Soliman</b>
16:18– 16:26	Extreme BTK revascularization ... From BTK to BTA	<b>Mariano Palena</b>
16:26– 16:34	Retrograde access always showing hope at the end of the dark tunnel	<b>Ahmed Sakr</b>
16:34– 16:42	BTK Dissections Still big Challenge, how to Manage	<b>Farouk Elalfy</b>
16:42– 16:50	Overcoming Technical Challenges in Crossing Chronic Total Occlusions (CTOs) During Peripheral Interventions: Strategies and Innovations	<b>Theodosios Bisdas</b>
16:50– 16:58	Deep Venous Arterialization as a Final Resort in CLTI Management	<b>Martin Maresch</b>
16:58– 17:06	Navigating Complex Scenarios: Lower Extremity Angioplasty Challenges	<b>Nashwan Attab</b>
16:06– 17:30	<b>Discussion &amp; Conclusion</b>	

# 29 OCTOBER 2023

## Session VIII: Venous Thromboembolism: Exploring New Concepts in Management for the Recent Era

Panel: Mohamed Alshammary - M. Lichtenberg - Ashraf Hedayat

Moderator: Houmann Galaei - Almaamoun Jusatniah - Efthymios Avgerinos

- |                    |   |                            |
|--------------------|---|----------------------------|
| <b>8:00 - 8:08</b> | General consideration for treatment of acute DVT  | <b>Houman Jalaie</b>       |
| <b>8:08 – 8:16</b> | Catheter thrombolysis still have a rule in a cute DVT intervention  | <b>Ihab Saad</b>           |
| <b>8:16 – 8:24</b> | Shifting towards mechanical thrombectomy  | <b>Efthymios Avgerinos</b> |
| <b>8:24 – 8:32</b> | Is there a role for IVC filters in Endovascular management of Acute Thrombo Embolism                                | <b>AlaaEldin Ahmed</b>     |
| <b>8.32- 8.40</b>  | Pharmaco-Mechanical Endovascular Clot Removal Systems: Selecting the Optimal Device for Different Clinical Scenario | <b>Ahmed S. Gaweesh</b>    |
| <b>8:40 – 8:48</b> | New era of anticoagulation, moving beyond NOACs   | <b>Hanan Hamed</b>         |

## Superficial Venous Disease: Advanced Concepts in Management

Panel: Khaled Abd Elaal - Ayman Fakhry - Mohamed Altwallah - Houman Jalaie

- |                    |  |                           |
|--------------------|--|---------------------------|
| <b>8:48 – 8:56</b> | Decision making in a saphenous Ablation, what to use when      | <b>Mohammad AlTwalah</b>  |
| <b>8:56 – 9:04</b> | Pelvic Venous Insufficiency, Standards of Reporting            | <b>Ayman Abdel Fattah</b> |
| <b>9:04 – 9:12</b> | NCLCS is the next step of CLACS in treatment of Telangiectasia | <b>Ayman Fakhry</b>       |
| <b>9:12 – 9:30</b> | <b>Discussion &amp; Conclusion</b>                             |                           |

**29 OCTOBER 2023**

**Session IX: Embracing a New Era in Chronic Venous Obstruction  
Management**

**Panel: Houman Jalaei - Ihab Saad - Efthymios Avgerinos**

**Moderator: Mohamed Alqarni -Ahmed Gawesh - Micheal Lichtenberg**

- 09:30– 09:38** Chronic venous obstruction, what is the evidence to intervene, when and how patient Selection and anatomical classification in venous intervention **Houmann Galaie**
- 09:38 - 09:46** Dilemma of superficial Reflux Combined with deep obstruction, which one to treat **Mostafa Soliman**
- 09:46 - 09:54** IVC filter related obstruction, remove or overstent **Atef Dessoki**
- 09:54 - 10:04** Complication of venous stenting and how to manage **Micheal Lichtenberg**
- 10:04 -10:12** Differences in devices available for chronic venous stenting. **Almamooun Justaniah**
- 10:12 -10:20** All comes to inflow when dealing with chronic venous stenting, how to improve my tips **Martin Schroder**
- 10:20 - 10:42** **Discussion & Conclusion**
- 10:42– 11:07** **Coffee Break**

# 29 OCTOBER 2023

## Session X: Challenges in Thoracic and Thoracoabdominal Aortic Disease Management: Exploring Recent Updates and Innovative Approaches

Panel : Amro Gad - Abdullah Alhaizaey - Reda Jamjoom

Moderator: Murad Sallam - David Wells - Dainis Krevinis

11:07– 11:15	Combined infrarenal and iliac aneurysms - planning and secondary interventions	<b>Martin Storck</b>
11:15– 11:23	Three-Year Survival of Critical Limb-Threatening Ischemia Patients With FFRCT-Guided Coronary Revascularization Following Lower-Extremity Revascularization	<b>Dainis Krevinis</b>
11:23– 11:31	Endovascular Management of Aortic Trauma	<b>Ali Badra</b>
11:31– 11:39	Reinterventions After TEVAR For TBADs	<b>Morad Sallam</b>
11:39– 11:47	Screening Program Does really affect rate of elective and rupture AAA repair?	<b>Reda Jamjoom</b>
11:47– 11:55	Current challenges in prevention of Thoracic stent migration	<b>Wael Tawfick</b>
11:55– 12:03	Midterm outcomes in FEVAR and BEVAR in TAAA	<b>Micheal Kallmayer</b>
12:03– 12:11	Resuscitative Endovascular Balloon Occlusion of The Aorta (REBOA) how could it be helpful in managing emergency cases	<b>Ahmed Nasef</b>
12:11– 12:19	Chimney snorkels are safe and effective and here to stay	<b>Krzystove Szianweski</b>
12:19– 12:27	Controversies in management of young patients with EVAR /TEVAR	<b>David Wells</b>
12:27 -12:35	Thoracoabdominal Aortic Aneurysm: Current Status of Open Surgical Repair	<b>Tarek Abd Elaziem</b>
12:35– 12:43	Comparing FEVAR and CHEVAR for AAA Repair: Exploring Long-Term Outcomes and Differences	<b>Tamer Khafagy</b>
12:43- 13:03	<b>Discussion &amp; Conclusion</b>	
13:03– 14:00	<b>Lunch Symposium</b> Sponsored by BD Endovenous solutions of chronic venous occlusion	<b>Houman Jalaie</b>

**29 OCTOBER 2023**

**Session XI: Optimizing Wound Management in Vascular Surgery:  
Vital Aspects of Diabetic Foot Care**

**Panel: Mostafa Soliman - Khalid Edress - Hasan Alzahrani  
Moderator: Alaa Abdelhalim - Huessin Barayan**

<b>14:00– 14:08</b>	IWGDF guidelines in Diabetic foot 2023	<b>Yehia Alfarra</b>
<b>14:08– 14:16</b>	When to perform foot surgery after revascularization	<b>Hesham Sharaf</b>
<b>14:16– 14:24</b>	Regenerative therapy in wound healing	<b>Mahmoud Salah</b>
<b>14:24– 14:32</b>	Diabetic Foot Management Dilemma: Navigating Wound Dressing Choices with Confidence	<b>Mohamed Farid</b>
<b>14:32– 14:40</b>	Midfoot charcot with ulcers approaches and pitfalls	<b>Hany Badahdah</b>
<b>14:40– 14:48</b>	Diabetic foot salvage, how far we should go	<b>Mohamed Henedy</b>
<b>14:48– 14:56</b>	Advancements in Wound Coverage Techniques for Managing Diabetic Foot Ulcers	<b>Khalid Edress</b>
<b>14:56– 15:04</b>	Surgical treatment is the gold solution, time is tissue	<b>Abd Elaziz Hafez</b>
<b>15:04– 15:30</b>	<b>Discussion &amp; Conclusion</b>	

**29 OCTOBER 2023**

**Session XII: Hemodialysis Challenges and Obstacles: Effective Strategies for Optimal Management**

**Panel: Lazlo Papp - Hesham Sharaf -Ashraf Hedayet**

**Moderator: Ahmed EL Marakbi - Kresistove Szianweski**

**15:30– 15:38** should we monitor vascular access with surveillance scan or act only when dialysis becomes difficult **Laszlo Papp**

**15:38– 15:53** Key Facts to maintain A good kidney transplant service **Waleed Masoud**

**15:53– 16:01** Surgical or intervention approach for vascular access (fistula) stenosis which is better for different scenarios **Ahmed Elmarakbi**

**16:01– 16:09** Cardiovascular effects of fistula formation. How can we reduce the flow if need? **Laszlo Papp**

**16:09– 16:17** Management of central venous occlusion with existing access **Souad Binallal**

**16:17– 16:30** **Discussion**

**16:30– 17:00** **Closing Ceremony**

# **WORKSHOPS**

**Sponsor:**  
BD

**Workshop:**  
Mechanical Atherectomy

**Date:**  
28 OCT 2023

**Time:**  
09:00 - 10:30 & 11:00 - 12:30

**Room:**  
Alkaram (1)
