Welcome

Mahmoud Salah

Conference president

Dear Colleagues

This conference goes to the heart of all matter's advancement in vascular and endovascular intervention, and it brings together the best scientists from around the world allowing you to hear and meet those at the forefront of our practice, and is being held in a beautiful location. There will be delegates from around the world.

It will feature highly respected internationally renowned speakers who will share, discuss, debate, and dissect significant new developments and scientific advancements in vascular and endovascular intervention filed that will impact the future of our practice.

The debates in vascular and endovascular intervention should end with some strong take-home messages. To reach that goal we need multiple sources of evidence and different clinical experiences. We need All work to be shared. The Conference is a unique and unmissable opportunity to meet face to face with colleagues and pioneers from different parts of the world. It is a major contribution for the development of vascular and endovascular intervention world.

We look forward to welcoming you in Jeddah , Saudi Arabia . We hope you will join us to make our Conference a memorable event.

WWW.Vascularart.com

Welcome

Ahmed Sakr

Greetings,

Conference Vice president

It is with great pleasure and honor that I extend my warmest thanks to the distinguished faculty invited to the highly anticipated VASCULAR ART conference of 2024. Your presence here today is truly appreciated, and I am grateful for the privilege of welcoming and addressing you all.

We are privileged to gather once again in the heart of Jeddah to share knowledge and updates in the rapidly advancing fields of Vascular Surgery and Vascular Intervention. With the ever-evolving technologies and techniques in Vascular Surgery and Endovascular Intervention, this conference promises to be a comprehensive platform for exploring a wide spectrum of advanced technologies and debatable hot topics in our field. I am thrilled to announce that this year, under the patronage of my esteemed mentor Professor Mahmoud Salah, we will be upgrading the VASCULAR ART program. This conference will be dedicated to showcasing the latest technologies and supporting all newcomers in our vascular field.

I cordially invite you to join us in Jeddah in 2024 for what is sure to be a highly informative and engaging conference. I eagerly look forward to welcoming you.

Best regards,

WWW.Vascularart.com
